

PRONTO®

VEGETATION KILLER

Non-selective control that lasts up to a full season

WHAT IT IS

Pronto® Vegetation Killer is a non-selective herbicide for control of unwanted vegetation, including most annual and perennial grasses, broadleaf weeds, vines, brush, and trees. Pronto can be used around homes, buildings, and structures to maintain a neat and clean look, and it's ideal for use along fences, curbs, sidewalks, driveways, parking areas, paths, patios, recreational areas – anywhere that no vegetation is desired. It readily mixes with water, and a single application of Pronto can provide season-long control.

WHAT IT DOES

Pronto controls:

- Grasses
- Broadleaf weeds
- Woody brush
- Vines
- Trees
- Most vegetation as listed

Ideal for use on:

- Residential sites
- Commercial areas
- Recreation areas
- Roadsides
- Fences
