N/A

Always read and follow label directions. Please visit [pbigordonturf.com](http://pbigordonturf.com) for more information or to download a full label.

\*For annual bluegrass and broadleaf weed control in bermudagrass and zoysiagrass.

Avoid applications of Katana during transition into or out of dormancy.

\*\*If hard-to-control broadleaf weeds such as English Daisy are the primary weeds being targeted, spot treatments of TZone may be necessary in order to not exceed the 2 broadcast applications per year restriction.

† For goosegrass control, use two applications of SpeedZone EW 30 days apart.

Katana® is a registered trademark of Ishihara Sangyo Kaisha, Ltd.

Arkon™ and TZone™ are trademarks, and Q4®, SpeedZone®, and Surge® are registered trademarks of PBI-Gordon Corp. 9/24 702992

Products in this program should not be tank-mixed; if additional control is needed, a follow-up application of another recommended product may be made at least 30 days after initial treatment.
